	5		1		6		3		2		9		7		4		8
7		3		5		4		8		6		2		9		1	
	8		2		9		7		4		1		5		6		3

Only the solution is printed.

The two nine by nine sudokus both have rows columns and blocks with once the number 1 to 9.

Where the two sudukus connect the numbers cannot be the same.
