

**9 by 9 Sudoku with different numbers around each position.**

Only the solution is printed.

1 9 bij 9 geen X 30 Cijfers(0)

7	4	2	1	8	9	3	5	6
8	6	9	4	3	5	1	7	2
5	3	1	2	7	6	8	4	9
4	7	8	6	9	1	5	2	3
1	9	5	3	4	2	7	6	8
3	2	6	7	5	8	4	9	1
6	5	4	9	1	3	2	8	7
9	8	3	5	2	7	6	1	4
2	1	7	8	6	4	9	3	5

In each row column and block the numbers 1 to 9 occurs once; like a traditional Sudoku.

On each position the numbers around are different from the number on that position.

7	5	8
9	1	3
5	2	7

around the one at the position in the middle all numbers are different from one.

6	5
9	8
2	1

Left under, around the nine at the position in the middle (left boundary) all numbers are different from nine.
